The President's Message - September 2020

Hope this newsletter finds everybody safe & healthy! The bands have been all set up for the new season. That being said see below

TGIF's; We have been averaging about 5 people per TGIF this spring & summer since we started up again. Again if you don't feel safe being out and about stay home. Your not missing a lot.

Labor Day picnic: Has been **CANCELLED**, due to restrictions by Dane County Parks. Only 1 person per picnic table, no card playing. No pot luck for food. Only 25 people allowed.

Keen Cusine: **CANCELLED** until further notice due to dining restrictions and low turn out lately. When restrictions are lifted, we will revisit starting it up again if there is interest.

September meeting: **CANCELLED** due to restrictions at the East Side Club. Indoor gatherings are capped at 10, people which just isn't enough to justify renting the hall and paying a band..

October meeting: Consider it cancelled. But we'll let you know if that changes.

Dues: Normally about 80% of our memberships are renewed in September and October. At this time, the Skilaufers Board has decided to suspend renewals of membership until we can start meeting again on a regular bases. At that time, we will reevaluate the dues time frame and may reset the renewal date. The Board may also consider extending memberships of those who renewed this past spring and summer.

Tiki Bar: Just a few members showed up in June or July so, if you don't feel safe attending, you're not missing much. The tables are spread out in back, it's a peaceful setting and there's no problem with social distancing. We'll keep you posted on any changes there.

The President's Message—Continued From Page 1

Future meetings: It may be a while before we will be able to meet and dance again, but we'll keep an eye on developments and let you know if anything changes. We may also skip a mailed newsletter or two in order to save costs, but will update the club's website.

Dues: Normally, about 80% of our memberships are renewed in September and October. At this time, the Board has decided to suspend membership renewals until we can start meeting again on a regular basis. At that time, we will reevaluate the membership time frame and could start a new renewal date. The Board would also consider extending the expiration dates of those who renewed this past spring and summer.

Stay safe and let board members know your concerns. We will do our best to keep you informed. To date, I am not aware of any Skilaufers who have had a problem with the virus. Thank God!

-Curt
